Time Magazine wrote, "Geoffrey has more than enough virtuosity and sheer musical wit and intelligence to weave all of his apparently disparate strands of influence into an original and compelling whole", and pop icon Sting said "In the universe of piano players that I have been exposed to over the years, Geoffrey has proved himself to be not only a superb technician and improviser, but also above and beyond this, a composer and conceptualist who can maintain the overall line and the DNA of the song in everything he plays. A musician's musician."
