

GEOFFREY KEEZER

Quotes

"In the universe of piano players that I have been exposed to over the years, Geoffrey has proved himself to be not only a superb technician and improviser, but also above and beyond this, a composer and conceptualist who can maintain the overall line and the DNA of the song in everything he plays. A musician's musician." - **Sting**

"You look like you can't do nothin'...we should work together!" - **Miles Davis**

"Beautiful playing! I love your improvised pianisms together with your wonderful compositions. Very inspiring!" - **Chick Corea**

"Geoffrey possesses a refreshingly open-eared sensibility in the modern manner, and he has more than enough virtuosity and sheer musical wit and intelligence to weave all of his apparently disparate strands of influence into an original and compelling whole." - **Time Magazine**

"Keezer has evolved a singular style of intellectually abstract lyricism woven over exotically complex rhythms and harmonies." - **Andrea Canter, The Jazz Police**

"Regardless of context or style, Geoffrey Keezer is equally comfortable in all-acoustic settings and those requiring more contemporary use of electronics. Consistently inventive and virtuosic, Keezer is, above all, unfailingly musical." - **Allaboutjazz.com - John Kelman**
